

If you are a real musician who knows the value of your music, you won't stoop down to these productions. No band in their right mind should pay to play. Or support anything related to it. It will DEFINITELY kill your scene, our scene.

Do you know what happens when money talks? Integrity gets fucked from behind.

This disgusting practice of forcing bands pay to play by lazy, no-good productions has been going on for ages and it's getting worse. It's time to make your stand. Fence sitting is for morons. It is time to draw the line. This is corruption for the music scene. These are productions that are corrupt and give bad impressions to the bands who want to join our industry. Good productions are getting slapped in their faces even if the good ones do it for the sake of music, for the sake of keeping pinoy music alive. It is time to put a stop to it.

Don't be IGNORANT.
Don't be STUPID.
Don't be a "willing" VICTIM

NEVER COMPROMISE. CHOOSE INTEGRITY.
